WEIGHT NARL TECHNOLOGY SAFE

**WHAT IS "NARL"?**

NARL stands for Non Adrevaline Release. The NARL 517 device uses safe and non-invasive ultrasound technology to trigger the release of non-adrevaline which leads to natural lipolysis. The fat deposits get broken down into free fatty acids and glycerol which can be converted into energy by exercising within 60 minutes of the session. Hence, there is a visible and gradual fat loss in the region desired by the client.

**HOW IS "NARL" DIFFERENT FROM OTHER BLIMMING TECHNIQUES?**

While other devices may also use ultrasound technology for fat loss, the NARL technique uses it at a very specific and patented frequency (i.e. 51700K). This triggers NATURAL lipolysis. In other cases the ultrasound waves may heat up the targeted area which could lead to tissue damage in the surrounding areas or in some cases could lead to hemolysis (blood clots).

**RESULTS EXPECTED:-**

The specific results would vary from person to person however, one can expect a loss of 3-5 kgs. In addition to localized inch loss in 8 weeks. Importantly, NARL helps in reducing visceral fats which is the deepest as well as most harmful layer of fat which leads to obesity related illnesses.

LIFESTYLE NARL 517 (MX) 3D BODY

The most advanced Blimming Technique for reducing Body Visceral Fat

**HIGHLIGHTS:**

- Professional use
- Non invasive reduction of localized fat (cellulite, subcutaneous and visceral)
- 7 cycle treatment (Body & Visceral)
- Effective visceral fat reduction
- Prevention and treatment of obesity and related diseases

The most advanced technology for measuring Visceral Fat, Trunk Fat and Waist Circumference in seconds

**HIGHLIGHTS:**

- Highly Accurate
- Portable
- Convenient
- Easy and Fast
- Convenient to work with. Suitable, virtually all and elderly patients
- Measurement time takes in under 30 seconds
- Easy to set up and use
- Highly accurate and repeatable results
- Lightweight and portable. Equipped with handy carry/hanging case

NON INTRUSIVE AND SAFE

FLATTENS. TANITA VISCAN REDUCES.
